

GP ASBESTOS SERVICES LTD

Company Quality Policy

GP Asbestos Services Ltd is an Asbestos removal company who specialise in the safe removal, stripping and surveying of asbestos material in compliance with The Asbestos at Work Regulations. GP Asbestos is a HSE Licensed company authorised to carry out such activities.

In addition to the above mentioned activities we also specialise in minor building works and reinstatement.

The company holds a valid **UKAS ISO 9001:2008** Accredited Quality Manual for the activities mentioned above.

Since the company was founded in 2008 we have built up an excellent reputation for the services and technical support that all our staff provides to its customers. The company recognises the importance of maintaining and further improving these standards.

It is the company's policy and objective therefore to;

“Pursue and Maintain a Policy of Quality and Service”

It is our business objective to;

- Supply an asbestos removal and surveying service which conforms to contractual and regulatory requirements.
- Exercise sufficient control over all aspects of the company's operations and maintain at all times suitable management structures, chains of responsibilities, procedure and training to ensure that the policy and objectives are achieved

The Quality Manual outlines the company's Quality Management System which has the full support and commitment of the **management team**.

GP Asbestos actively encourages and welcomes visits by, or discussions with customers or clients to assess the quality of our service.

A copy of the Quality Manual is available upon request.

Our Quality Management Representative is **George Phillips**.
